

Will it ever end?

Back pain—four out of five Americans will experience it sometime in their lives. Herniated disks. Scoliosis. Spinal injuries. They're all potentially serious conditions, many of them painful. But, thanks to today's advances, most back ailments, and the pain they cause, are very treatable.

ANI Orthopaedic Group, affiliated with Bayshore Community Health Services, offers one of the most comprehensive spine and neck programs in New Jersey—including pain management, surgery, therapy, sports medicine, rehabilitation and more. It's a state-of-the-art, multidisciplinary approach that puts you, and your back, in the hands of experts.
